As an active member of my local and region throughout my career in the government, I'm fully aware of the issues that are important to the members both within the workplace and within the union. Our members want better working conditions, increased pay, and more provisions for better work-life balance. Our members also want a fair collective agreement, support from their union and to be better informed about what the union is doing for them. There are many more issues but these are just a few of the things that will be addressed at the convention.

I've been actively working for the members by putting forward resolutions that will benefit our membership. As an author to many of the resolutions going to convention I have been working over the last 3 years to address issues that our members face and change the way our union works and supports members. This gives me the experience and knowledge to support our priorities and counter others' arguments when debating resolutions at convention. I have also attended the Prairies and Atlantic Regional Triennial Conventions and understand the differences but also similarities in the challenges that our members are facing.

Through my time spent on the PA bargaining team, I have made many connections both regionally and nationally inside and outside our component. I have and will continue to use those connections to help push our local, regional and component priorities forward.

It is important that the delegate to the 2027 PSAC National Triennial Convention is voting in the best interest of the membership. I will use my experience, knowledge and passion to represent our members to the best of my ability and continue to advocate for our members at the convention.

Thank you in advance for your support and consideration.

In Solidarity,

Charito Humphreys
