

Cindy Evans

Elect for delegate at the 2027 PSAC National Triennial Convention

I am submitting my resume for consideration as a delegate to attend the Triennial Convention. As a member of the Local 534 Executive for the past four years, the Differently Abled Committee for the region of Ontario, as well as the Sudbury and North Bay Area Council, I am deeply committed to the union work we do and the members we serve. I continue to see many of our members facing serious challenges, and the current situation is unacceptable. These include accommodations for members with disabilities, family status concerns, health, and safety issues, most recently workforce adjustment (WFA) and other ongoing workplace and equity-related issues.

These are not isolated local concerns; they reflect systemic issues affecting members across our union nationally. For that reason, it is essential that our union leadership implement stronger, more consistent support measures for members. Our members are facing uncertainty and deserve to know their union will stand up, advocate, and fight for their rights every time.

Now more than ever, we need change that strengthens our union and makes our union a force to be reckoned with. Our members need and deserve equal and fair treatment from the employer. By attending the Triennial Convention, I will have the opportunity to hear the candidates' platforms and measure whether or not they align with what our membership truly needs moving forward. This will allow me to confidently cast my vote on behalf of our local members for the leader who will deliver concrete changes with immediate and lasting positive impacts. Thank you for your consideration!

In Solidarity,

Cindy Evans
