Hello, my name is David Evans. To ensure that frontline workers, especially those who are marginalized, racialized, or underrepresented have an informed and principled voice at the national level, I am seeking election as an Ontario delegate for CEIU to the PSAC National Convention.

As a Citizen Services Officer, I understand firsthand the difficulties, complexities, and public-facing pressures required by Service Canada employees. My daily work gives me a grounded perspective on the realities our members face and the systemic challenges that shape service delivery across the country.

I serve as Vice-President for CEIU Local 592, advocating for members and being a resource on all topics related to the union and the workplace. In the past, I held the Secretary and Steward positions. I currently serve as the Secretary for the CEIU Ontario Racialized Action Committee, where I help advance equity-driven initiatives and strengthen support for racialized members. I also serve as Chairperson for the PSAC Ontario Southwestern Racialized Committee and Treasurer for the PSAC London Area Council, roles that have strengthened my experience in governance, financial stewardship, and member engagement. I am also a PSAC Ontario Council Region 4 (Southwestern) Representative.

As a Regulated Canadian Immigration Consultant, I bring a unique understanding of the work performed across all three departments represented within CEIU. This cross-departmental insight allows me to appreciate the full scope of our members' duties and the services they provide. Combined with my background as a Certified Human Resources Professional, I bring strong expertise in labour relations and workplace rights.

Across all my roles, my focus remains consistent, strengthening our union through equity and practical solutions to improve our members' lives. I would be honoured to represent our members across Ontario and help shape a stronger, more inclusive PSAC for the future.

Thank you,

David Evans
