I have been honored to represent the members of NL/NS since 2017 as NVP.

I have gained a wealth of knowledge as a result of sitting at the National Table on the Bylaws Committee, Service Needs Committee, National union/Management Committees, and National Policy Health Safety Committee. I work with the Immigration Refugee and Citizenship Canada NVP, Human Rights NVP, and Women's Issues NVPs

At the Regional level I Co-chair the Atlantic Union/Management Consultation Committee Meetings with the Atlantic Assistant Deputy Minister, Co-chair the Atlantic Health and Safety Committee Meetings, I attend regular update meeting with the Director Generals of various business lines and also request meeting with them when ever need to discuss issue in the region. I have worked hard to have consistency in Union/Management meetings in the region and have raised the concerns of members at Local, Regional and National Union/Management Consultation Committee Meetings.

It is important to attend the National PSAC Convention to continue to learn and see first hand the wish of the members of our union. The information i gain at this convention will help me as l continue to fight for members on long standing issues and understand the history and issues of all members. I am devoted to the membership and I work hard in my role.

I have attended a number of CEIU and PSAC conventions as delegate and observer. Have walked picket lines and attended a number of demonstrations. I have been a member of CEIU for over 30 years. And I want to continue to find ways to help members and learn their issues and concerns.
