Resume Submission

Robert Comeau

I have served as President of Local 80220 since 2008 and have represented Nova Scotia on the Newfoundland and Labrador/Nova Scotia Regional Committee for the past five years. Throughout my union involvement, I have actively supported PSAC Atlantic initiatives whenever called upon.

Alongside a PSAC staff member, I met with Senators to advocate for the preservation of lighthouses. I also represented the union at an event focused on protecting historical artifacts, both as a union member and as a proud French Acadian. My experience in the fishing industry, combined with my understanding of government policies, has strengthened my commitment to defending the rights of our members and protecting the hard-fought gains achieved by those who came before us.

I would like to attend the PSAC National Triennial Convention. I believe this opportunity would allow me to network with members from across the country while gaining valuable knowledge and insight at the national level. I am confident that I could bring these learnings back to my region and use them to better support and serve our members.

We are living in challenging times, and the recent Treasury Board offer demonstrates that the government is not fully recognizing the value of its employees. It is important that PSAC continues to hear our concerns and advocate on our behalf. As Area Coordinator for the Tri-Counties of Southern Nova Scotia during our last strike, I spent countless hours communicating with both the PSAC Atlantic representative and our members. If called upon again, I will continue to support and advocate for our membership.

I know I can learn even more by attending the PSAC National Triennial Convention, and I hope to be considered for this opportunity.

Thank you,

Robert Comeau
