My name is Sarita Censoni, President of local 559. I have been a dedicated union activist for several years. I have served many roles within Ontario Regional Council and Ontario standing committees in the past and present. I am looking for your support to attend this crucial convention taking place in September 2026. The union needs to have strong voices at this especially crucial time at this convention. Time for action is now, and we need strong activists with strong leadership skills to debate, motivate, and engage the future of the CEIU union moving forward. For far too long, the union has forgotten its roots and members. We lack representation at all levels. In the WFA world, anxiety, stress at work and home, the union needs strong voices to articulate the members' concerns and issues. I am that voice. I have represented many members at various levels and won their cases. I am not afraid to challenge and present solutions to my employer, call them out when it is needed. My message is not what the union can do for me but rather what I can do to improve my union. CEIU needs change and we must go back to our roots. CEIU needs equal, more inclusive and proportional representation at all levels. Locals need support and I will stand up and defend our members' issues at all levels. A vote for me means your voice counts and matters. When we are united, We Win! For those who may not know me, I am very passionate, skilled, and dedicated activist who tries her best to help members who need their union the most.

In Solidarity,

Sarita Censoni
