I am applying to attend the 2027 PSAC National Triennial Convention as an executive union member because I am deeply committed to strengthening member engagement and ensuring our collective voice is effectively represented at the national level. This Convention is a critical forum where delegates debate resolutions, set policies and priorities, and shape the future direction of our union. I am eager to contribute thoughtfully to these discussions and advocate for the interests of our members.

As an executive member, I recognize the responsibility to not only participate, but to bring back meaningful knowledge and support to our local. If selected, I will actively engage in all sessions, carefully review proposed resolutions, and collaborate with delegates from across regions to better understand diverse perspectives. I will prioritize issues that directly impact our membership, including workplace protections, equity, and fair representation.

Following the Convention, I will ensure that the information gained is shared in a clear and accessible way. This includes providing detailed reports, hosting information sessions, and creating opportunities for members to ask questions and discuss how national decisions affect them locally. I will also work with our executive team to implement relevant policies and initiatives, ensuring they translate into tangible improvements for our members.

Attending this Convention will strengthen my ability to serve as an informed and effective leader. I am committed to fostering transparency, encouraging participation, and supporting members with the knowledge and tools they need to stay engaged in our union. Thank you for considering my application
