My name is Wyatt Delbridge. I have been actively involved with the Labour movement for many years. Initially with a different employer I was a shop steward with CUPE starting in 2014 but beginning in 2016 I started working for ESDC in the CPP/OAS pension centre at 280 Broadway. I have since worked across ESDC, from the pension centre to in-person services, as a TL, within real property and now again at the SCC in Winnipeg.

In February 2020 I became an OHS rep at an in-person Service Canada Centre. That experienced turned into the start of really getting involved here within ESDC with the events that followed to protect the health and safety of my fellow co-workers. I joined my union local 50005 as president in 2021 and have been active within CEIU and PSAC more broadly ever since. Currently I serve as both President of CEIU local 50005 and Vice-Chair of the PSAC Winnipeg Area Council. I am also currently serving as the Western Canada Employee OHS co-chair representing all employees across the region.

My hope is to ensure there is a strong voice for CEIU members at national convention. To ensure that the interests of CEIU members are being heard even if we don't have any of our own resolutions to press for. It's essential that the resolutions that do come to the floor have an eye from CEIU membership looking at it. I hope to bring my experience from working across ESDC in various roles and within CEIU over the last 10 years to that floor and would be honoured to be given the privilege from membership to be that voice on your behalf.
